

School Offer: Spring and Summer Term 2018/19

Therapeutic Early Intervention Packages

SALT’s Therapeutic Education Practitioners offer extensive knowledge and experience in applying evidence and nurture-based interventions to support emotional regulation and educational engagement within schools, education and children’s social care settings.

Through Attachment Friendly and Trauma-Sensitive Approaches we can offer:

The Confidence Builder – Supporting children to develop self-confidence, self-belief and self-esteem, whilst nurturing and enhancing emotional regulation.

The Mind Map – Promoting the importance of a healthy ‘Heart, Body and Mind’ through positive mental health and emotional well-being sessions designed to enhance attendance and support inclusion in learning.

The Learning Leap – A creative approach to supporting Looked After and Adopted Children, enabling them to better access ‘learning’ from their own perspective.

Keep Me Connected – Tailored support and practical interventions for Children of Parents in Prison CPIP.

The Restorative Run – Restorative approaches offered through an easily accessible and age appropriate model of relational repair, restoration and reparation.

Lego®- Based Therapy – Developing children’s social interaction skills through Lego® Therapy whilst promoting positive relationships with peers.

Maths and Reading Interventions – Evidence-based interventions to boost and enhance confidence and access to whole class learning.

Feelings and Fears – Supporting children to manage stress, anxiety, friendships, school refusal and transitions.
